Covid-19: Volunteer Efforts in Communities Survey
People all across Maine are coming together to coordinate grocery shopping, pharmacy pick up, and daily check-in calls with older people who are not able to get out during this crisis. We want to create a central depository for this information so that service providers of all kinds can more easily find the services older people need during this crisis. Please share what your community is doing to help older residents get what they need by completing this very brief survey. Click here to take a few minutes to let us know how your community is responding to the needs of older residents.

We are working to share any community efforts & available resources across Maine and has started sharing on our website here for easy reference. Please take the survey to let us know about volunteers efforts so we can spread the word!

Check out the new Local Community Volunteer Efforts page here:
