MCOA Statement of Equity & Inclusion

The Maine Council on Aging is committed to engaging a full range of perspectives, ideas and experiences to help us achieve our collective goals. We work to make sure we can all live healthy, engaged, and secure lives as we age in our homes and communities. As an advocacy organization in the whitest state in the country, we commit to being agents of equity and inclusion for older adults in our state, particularly people of color. We commit to deepening our understanding of racial equity, hosting uncomfortable conversations, and joining others in reimagining equitable systems of care and community.
