

ANDROSCOGGIN Home Healthcare + Hospice

Our Mission

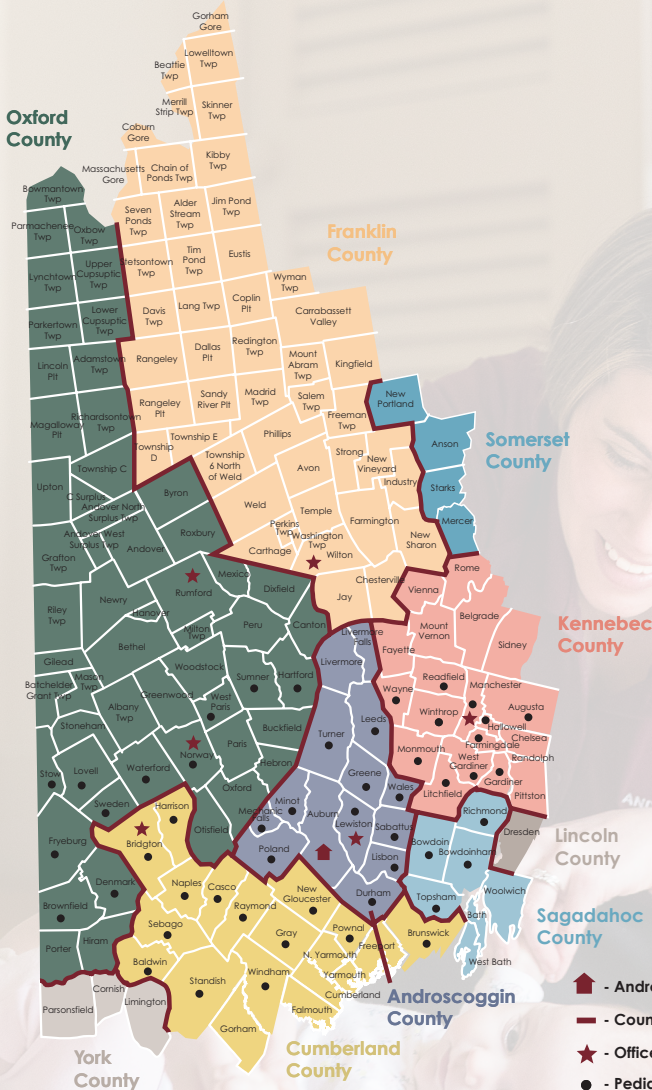

Androscoggin Home Healthcare and Hospice is an organization about living, dedicated to enhancing quality of life by providing innovative and compassionate medical care for all.

An organization with heart

As Maine's largest independent non-profit home healthcare organization providing health, hospice and care management services since 1966, we know the focus should be on health – not illness. We help people – from infancy to end of life – thrive and maximize their independence by providing the skilled medical attention and state-of-the-art solutions needed to achieve personal health goals.

We put people first, never turning someone away due to inability to pay.

We offer all of our services to individuals regardless of inability to pay. It's health care as it should be, and we're proud to be leading the way.

To make a referral, call Androscoggin Home Healthcare and Hospice at 207.777.7740.

Serious illness affects every aspect of a person's life—not just physical. MCPM goes beyond pain and symptom management to include emotional, spiritual and social advocacy, guidance and support.

The MCPM team of skilled professionals includes:

- Physicians
- Nurse Practitioners
- Navigators
- Nurses
- Social Workers
- Spiritual Care Professionals

As an offering of Androscoggin Home Healthcare + Hospice, MCPM has access to Androscoggin's entire array of services. These include Home Health and Hospice, Physical and Occupational Therapy, Wound Care, Telehealth, and much more.

**For more information
about receiving palliative
medicine services please
call 207-777-7740**

For people living with life-limiting illness, Maine Center for Palliative Medicine provides specialized, whole-person medical care to improve overall quality of life.

How can palliative medicine help?

MCPM works to reframe the language of illness and determine goals for care based on what matters most to an individual and their family.

MCPM can help you:

- Get information to better understand your condition and make more informed decisions about your care
- Ease physical symptoms, fears and worries that impact your quality of life
- Navigate, clarify and address what is most important to you across the course of your illness
- Define, document and communicate your healthcare priorities and wishes
- Improve your symptoms by collaborating with your primary healthcare team
- Receive the right care in the right place at the right time according to your goals and wishes
